Who Lost China?

You gotta be kidding.
Just took patience & now

China grinds the faces, & how!
of the poor for our God, Capitalism. & in

their altruistic way, finances our wars
by owning much of the debt--playing
Uncle to Uncle Sam. Iraq? Only wait.

Requires heroic measure of stick-
ing it further up, sustained, so they

ultimately forget which way Mecca is. But
Then! Well...50 more years or so of chaotic
fits & starts leading to a hot Little America,
Near East branch. Why neocons, marvelously,

‘ll come in their coffins, way their
dullass blood brothers might’ve
so so so so many leaden years ago.

As monks of old they can start sleeping
in them now. And practice.
